

IPsec VPN Remote Access

Enable your employees at home, on the go, or in a remote/branch office to seamlessly and securely connect to your corporate MPLS network via public Internet with IPsec VPN Remote Access from AireSpring.

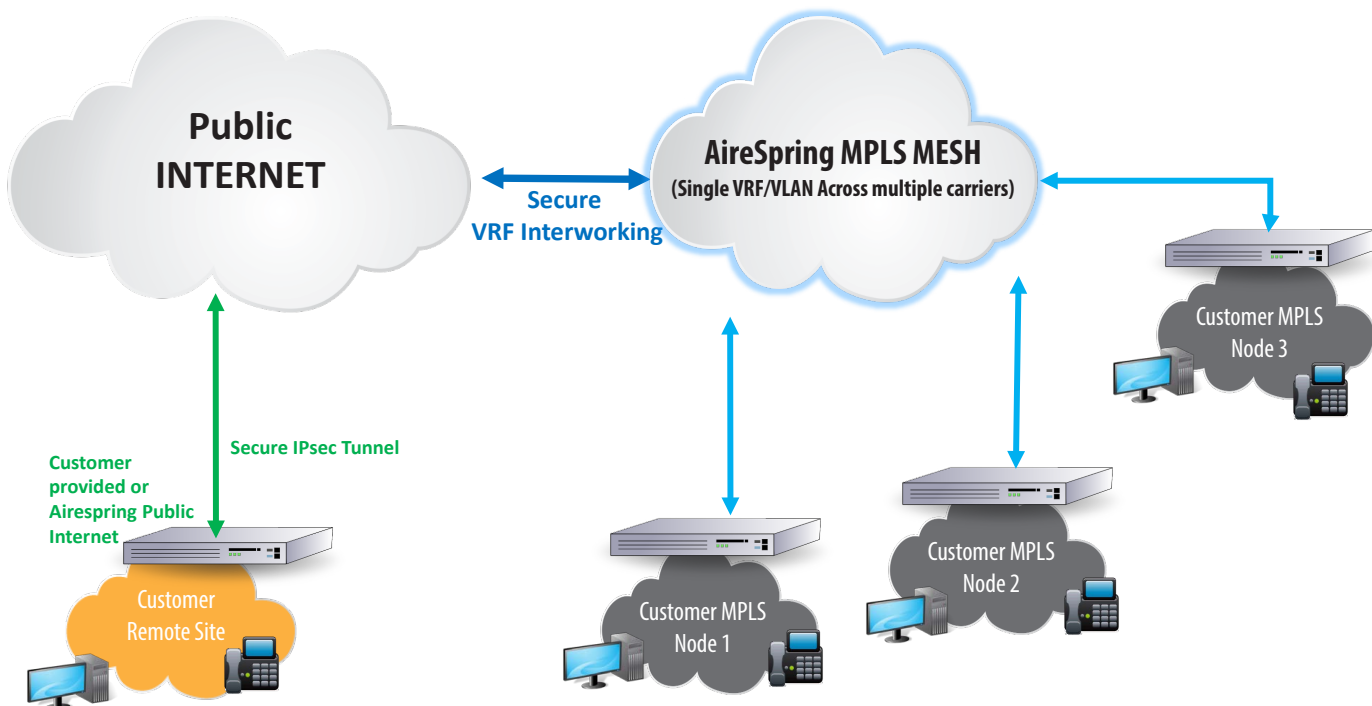

Even without an MPLS circuit, enable employees to access existing AireSpring Private/MPLS networks over the Internet while simultaneously safeguarding your data and improving cost efficiencies.

AireSpring will work with you to customize an AireSpring IPsec VPN Remote Access solution that meets all of your security and connectivity needs.

Customize an AireSpring IPsec VPN Remote Access solution that meets all of your security and connectivity needs.

FEATURES

- Remotely connect securely and seamlessly to your AireSpring private MPLS network using the public Internet, without an MPLS circuit.
- Use the Public Internet for backup of an AireSpring provided MPLS WAN link.
- Use AireSpring IPsec VPN Remote Access to encrypt or secure any data that transits through the public Internet.
- Use connectivity from AireSpring and pick different underlying vendors. Choose from TDM, Ethernet, Cable, DSL and Wireless options for additional diversity or use your own AireSpring connectivity.

THE AIRESPRING ADVANTAGE™

Fully Managed Network with QoS

Our fully managed, owned and operated IP network with end-to-end QoS provides exceptional voice quality. Multi-carrier and multi-network redundancy delivers maximum security and uptime (available with AireSpring Managed Connectivity).

Eliminate Finger Pointing Between Providers

All services are delivered by a single vendor on a fully managed network, allowing you to avoid the finger pointing that can occur when multiple vendors are involved (available with AireSpring Managed Connectivity).

Largest Available Coverage

We cover more locations than anyone else on our network, with the largest combined footprint.

Reliable and Diversified Network

AireSpring's geo-redundant network provides true network diversity and supports disaster recovery options, helping to ensure business continuity.

FREE On-Premises Enterprise-Grade Router/Gateway

We provide a fully managed, enterprise-grade router/gateway to manage VoIP and Data traffic, (available with AireSpring Managed Connectivity).

Online Access via our AireCare™ Customer Portal

Our advanced online billing reporting portal provides 24/7 access to your billing and service details.

Free 24/7 Proactive WAN Network Monitoring Service

Our Managed Connectivity services include free 24/7 professional monitoring with the AireNMS network monitoring service. Our NOC proactively monitors your network to pinpoint and fix potential problems before they affect your business (available with AireSpring Managed Connectivity).

Personalized Service

AireSpring delivers outstanding customer service, featuring one bill and a single point of contact for all your service needs.

AireSpring has received numerous industry awards for "Product of the Year," "Best Telecom Deal," "Members Choice Top Reseller," "Best in Show," and "Top Channel Program."
